# Upute za ispravak pogrešnih podataka i ujednačavanje identiteta autora u bazama Web of science core collection (WOS) i Scopus

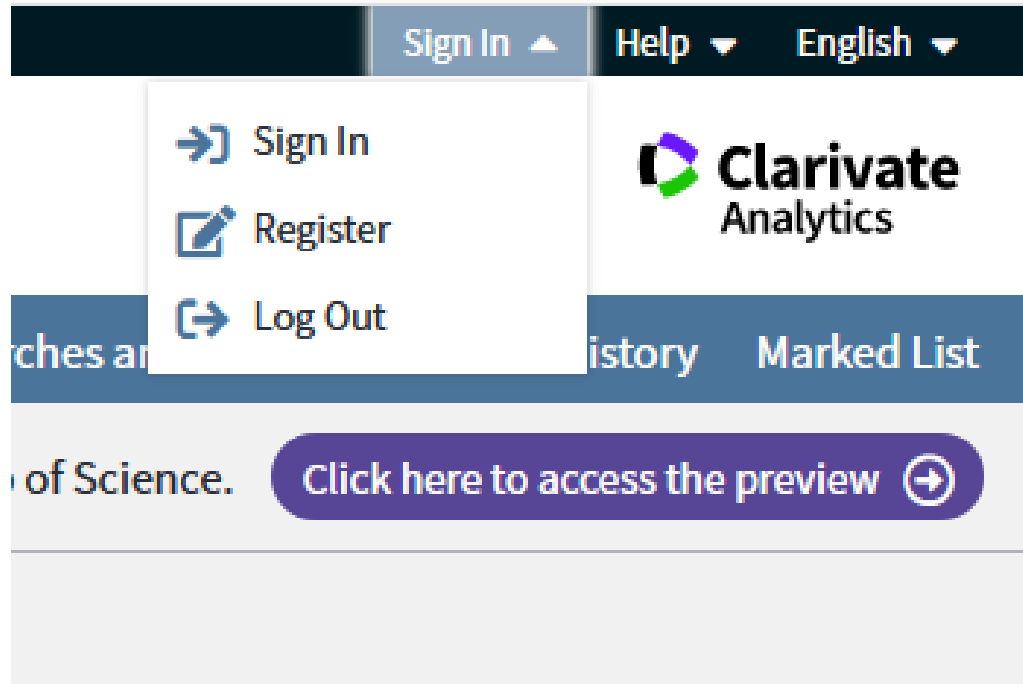

dr. sc. Ivana Pažur, knjižničarski savjetnik

## Dvije razine ispravaka

- **1. ažuriranje podataka pojedinačnih radova** – najčešće kod pogrešno napisanih imena npr. *Ivana - prezime, M – ime i sl.*
- **2. ažuriranje radova povezanih s profilom autora** – profil je automatski kreiran (profilu se dodjeljuje *Researcher ID/Author Identifier*). Profil omogućava upravljanje popisima publikacija i izbjegavanje pogrešne identifikacije autora.

# Web of Science Core Collection

Prvo je potrebno otvoriti korisnički račun

## 2. ažuriranje radova povezanih s profilom autora

Na početnoj stranici baze <https://apps.webofknowledge.com/> u obrascu za pretraživanje **treba izabrati author search**

The screenshot shows the search interface of the Web of Science database. At the top, there is a dropdown menu labeled 'Select a database' with 'Web of Science Core Collection' selected. Below this, there are four search options: 'Basic Search', 'Author Search BETA', 'Cited Reference Search', and 'Advanced Search'. The 'Author Search BETA' option is highlighted with a red rectangular box. Below these options, there is a section for 'Name Search' with the text 'Web of Science ResearcherID or ORCID Search'. A descriptive paragraph explains that searching for an author will show their author record, which is a set of documents likely authored by the same person. At the bottom, there are two input fields: 'Last name' and 'First name and middle initial(s)'. To the right of these fields, there are links for '+ Include alternative name' and 'Reset'.

Select a database Web of Science Core Collection

Basic Search **Author Search<sup>BETA</sup>** Cited Reference Search Advanced Search

Name Search Web of Science ResearcherID or ORCID Search

Search for an author to see their author record. An author record is a set of Web of Science Core Collection documents likely authored by the same person. You can claim and verify your author record from your author record page.

Last name First name and middle initial(s)

+ Include alternative name | Reset

Autor će se registrirati na Publons platformi - Nakon pristupa platformi na uvid će biti ponuđeni radovi koje autor treba potvrditi ili ako nisu njegovi odbaciti.

The screenshot shows the Web of Science interface for an author record. The author's name is **Alajbeg, Iva Z.** and the record is marked as 'Unclaimed - This is an algorithmically generated record'. The author's affiliation is listed as 'University of Zagreb, Sch Dent Med, ZAGREB, CROATIA'. A modal dialog box titled 'Claim ownership of this Web of Science Author Record' is overlaid on the page. The dialog contains the following text: 'Claim this record by registering for a new Publons account or sign into Publons using your Web of Science username and password, and then confirm ownership.' This text is highlighted with a red box. Below this text is a button labeled 'Claim This Record On Publons'. To the right of the main text in the dialog is a section titled 'Is this record not you but you want to make some corrections?' with a subtext: 'If you see publication(s) on this record written by someone other than this author, help us correct the record.' At the bottom of the dialog is the Publons logo and a description: 'Publons is public profile and private dashboard made for researchers to manage, track, evaluate and showcase their research contributions. Publons is a product of the Web of Science Group, part of the Clarivate Network.' The background of the page shows the author's profile with '49 publications from Web of Science' and a 'Citation Network' section displaying an H-index of 9 and a Sum of Times Cited of 265.
