Kako provjeriti u kojem kvartilu je časopis?

Dodatna uputa za studente poslijediplomskog doktorskog studija

dr. sc. Ivana Pažur, knjižničarski savjetnik
biblio@sfzg.hr

Rangiranje časopisa unutar određenog predmetnog područja iskazuje se kvartilima (Q1, Q2, Q3, Q4)

Q1 znači da se časopis prema visini svojega faktora odjeka ubraja među 25% časopisa s najvišim faktorom odjeka u svojoj skupini u pojedinom predmetnom području.

U bibliometrijskoj analizi za znanstvena i znanstveno-nastavna napredovanja kao i za bodovanje na poslijediplomskom studiju obuhvaćaju se **samo radovi** objavljeni u rangiranim časopisima (poster i sažeci se ne obuhvaćaju!).

Za rangiranje časopisa koriste se dvije baze:

JCR (Journal Citation Reports) – temelji se na podacima o citiranosti iz časopisa zastupljenih u bazi **Web of Science Core Collection (WoSCC)**

i

SJR (SCImago Journal & Country Rank) - temelji se na podacima o citiranosti iz časopisa zastupljenih u bazi **Scopus**

[Poveznica za pristup bazama](#)

Kako provjeriti kvartil časopisa u JCR bazi?

- Za rad koji je objavljen u časopisu indeksiranom u bazi Web of Science Core Collection
- U polje za pretraživanje upisati naslov časopisa ili ISSN broj

Publisher information

Na stranici je dalje naveden posljednji dostupni faktor utjecaja (impact factor) i grafički prikaz za posljednjih 5 godina (ostale godine su vidljive klikom na link view all years)

Impact factor časopisa Caries Research je 3.918 za 2021. godinu

Rangiranje časopisa prema faktoru utjecaja

Časopis Caries Research je 2021. godine bio 21. od 92 časopisa u predmetnoj kategoriji Dentistry, Oral Surgery & Medicine pa je rangiran u prvi kvartil - Q1

Rank by Journal Impact Factor

Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is shown for each category in which the journal is listed in JCR. Data for the most recent year is presented at the top of the list, with other years shown in reverse chronological order. [Learn more](#)

CATEGORY

DENTISTRY, ORAL SURGERY & MEDICINE

21/92

JCR YEAR	JIF RANK	JIF QUARTILE	JIF PERCENTILE	
2021	21/92	Q1	77.72	
2020	17/92	Q1	82.07	
2019	30/91	Q2	67.58	
2018	23/91	Q2	75.27

Kod indeksiranosti časopisa u bazi **Web of Science Core Collection (WoSCC)** treba obratiti pažnju i u kojem je časopis citatnom indeksu

Faktori odjeka časopisa (JCR) **ne izračunavaju** se za časopise koji su indeksirani u citatnom indeksu **Emerging Sources Citation Index (ESCI)**

Napomena: početak će se izračunavati od 2023. godine

Četiri su glavna citatna indeksa:

- Arts & Humanities Citation Index (1975. – danas)
- Emerging Sources Citation Index (2005. – danas) - **JCR kvartil se ne izračunava, doktorski studij: rad se ubraja u druge međunarodne indekse**
- **Science Citation Index Expanded (1955. – danas) – doktorski studij: rad se boduje prema JCR kvartilu**
- Social Sciences Citation Index (1955. – danas)

Primjer: Acta Stomatologica Croatica

časopis je indeksiran u **WoSCC, Emerging Sources Citation Index (ESCI)** - faktor utjecaja ni kvartili nisu izračunati

The screenshot shows the Clarivate Journal Citation Reports website. The header includes the Clarivate logo, navigation links for Journals, Categories, Publishers, and Countries/Regions, and user options like My favorites, Sign In, and Register. The main content area features a purple banner with the text "The world's leading journals and publisher-neutral data". A search bar is active, displaying the search term "Acta stomatologica Croatica" (highlighted with a red box). Below the search bar, a dropdown menu shows the search results for "Acta Stomatologica Croatica", including the ISSN/eISSN (0001-7019 / 1846-0410) and a link to "See 1 result". Below this, there are sections for "CATEGORY NAME" and "PUBLISHER NAME", both indicating that there are no matches for the search.

Za časopis u ESCI indeksu izračunava se **Rank by Journal Citation Indicator (JCI)** koji se razlikuje od Rank by Journal impact factor

Acta Stomatologica Croatica JCI Q3, ali JIF nema kvartila

Journal Citation Indicator (JCI) izračunava citiranost publikacija unutar posljednje 3 godine, za razliku od Journal Impact Factor (JIF) koji izračunava citiranost publikacija za posljednje 2 godine.

Rank by Journal Citation Indicator (JCI)

Journals within a category are sorted in descending order by Journal Citation Indicator (JCI) resulting in the Category Ranking below. A set presented at the top of the list, with other years shown in reverse chronological order. [Learn more](#)

Q1 - zeleno
Q2 - žuto
Q3 - narančasto
Q4 - crveno

Klikom na “rešetku” desno (označena crvenom strelicom) otvara se tekstualni popis kvartila po godinama (sve godine ne moraju biti vidljive u grafikonu!)

Quartiles

The set of journals have been ranked according to their SJR and divided into four equal groups, four quartiles. Q1 (green) comprises the quarter of the journals with the highest values, Q2 (yellow) the second highest values, Q3 (orange) the third highest values and Q4 (red) the lowest values.

Category	Year	Quartile
Dentistry (miscellaneous)	1999	Q1
Dentistry (miscellaneous)	2000	Q1
Dentistry (miscellaneous)	2001	Q1
Dentistry (miscellaneous)	2002	Q1
Dentistry (miscellaneous)	2003	Q1

Zaključno

- Ako časopis nije indeksiran u bazama WoSCC i Scopus nije uključen ni u baze JCR, odnosno SJR = nije izračunat factor odjeka ni kvartili.
- Časopis indeksiran u WoSCC – ESCI indeks – kvartil i factor odjeka **samo u SJR bazi**
