The screenshot shows the search interface for the Web of Science Core Collection. At the top, there is a dropdown menu labeled 'Select a database' with 'Web of Science Core Collection' selected. Below this, there are four search options: 'Basic Search', 'Author Search BETA', 'Cited Reference Search', and 'Advanced Search'. The 'Author Search BETA' option is highlighted with a red rectangular box. Below these options, there is a section for 'Name Search' with the sub-option 'Web of Science ResearcherID or ORCID Search'. A descriptive paragraph explains that searching for an author will show their author record, which is a set of documents likely authored by the same person. At the bottom, there are two input fields: 'Last name' and 'First name and middle initial(s)'. To the right of these fields are the options '+ Include alternative name' and 'Reset'.
